**Main aims, purpose and outcomes and how does it fit in with the wider aims of the organisation:**

A review of the current children and young people's transport policies to determine if services can be provided in a more efficient and cost effective way as part of the Challenge Session process. Possible option proposals include the withdrawal of discretionary transport services such as denominational and post 16 transport . Consideration has been taken of the Department for Education's announcement that, from September 2011, the Government will introduce a new £180m,16-19 Bursary Fund, which will enable schools and colleges to target support to those young people facing greatest financial barriers to participation. The new scheme, unlike the existing discretionary learner support funding, will have the flexibility to allow for transport costs where schools and colleges identify this as a barrier to individual students' participation.

The proposal is as follows;

- to withdraw subsidised denominational transport for pupils with effect from September 2012
- to withdraw subsidised post 16 transport for pupils with effect from September 2012

Further information related to the proposal can be found on the Cheshire West and Chester website.

**Is the above relevant to equality and diversity?**

**Yes** ✓

**Exit the process if you answered No to all of the above questions, otherwise please continue.**

This is currently afforded by the policy maintaining discretionary provision for prescribed exceptional circumstances e.g. for looked after children and those with medical problems etc, and a right of appeal against a decision to provide discretionary transport, currently referred to the Appeals Committee. It is important the same or similar safeguards are maintained. Adopting the proposal would not of itself be a violation of the protections contained in the Human Rights Act so long as the processes outlined in this paragraph enable individual rational evaluation.</p> |  |  |  |
