

Cheshire West & Chester Council

Mobile Library Service Consultation

Background

There are currently 135* Mobile Library stops across Cheshire West and Chester. Following a Library Service Review in 2014, and a reduction in the number of mobile library vehicles, it has been necessary to review the current service provided by the Mobile Library.

Currently, there are approximately 550 library customers actively using the Mobile Library Service in Cheshire West.

*not counting duplicate stops

Services

The Mobile Library offers a current and wide range of stock including adult and junior books and also audiobooks.

With internet connectivity and access to the web based Library Management System, customers have access to stock across the authority and are able to make reservations and update their accounts. Mobile Library staff can also provide online council information and an enquiry service.

There is also free access for library members, to a wide range of online resources, including eBooks, via the Libraries' webpage.

The Proposal

The proposal is to maintain 100 stops and improve accessibility to the service by implementing a three week rota (see pages 4-5). This would be instead of the current four week rota (see pages 2-3) and would bring the service in line with loan periods at static libraries. Wherever possible, at the busier locations, stop times would be increased.

Any residents affected by the proposed changes, with restricted mobility, would be entitled to the Home Library Service. This service (provided in partnership with the Royal Voluntary Service) would deliver books to each resident's home.

The offer for schools, pre-schools and nurseries would be standardised through the offer of a paid subscription to the Education Library Service (ELS). This would enable these organisations to have access to a wider range of books, tailored to their needs, as well as materials and curriculum support. These are not available through the Mobile Library Service.

It is proposed that routes would be reviewed on a six monthly basis to maintain effective service provision.
