

Statement Of Reasons

Cheshire West and Chester Borough Council

(King Street, Rudheath to Middlewich)

(50mph speed limit)

PROPOSED ORDER 2022

King Street is a medium quality rural road which is relatively straight and has accesses all along its route with a mixed local access/through route function.

The Speed Limit Assessment was undertaken in January 2021. The routes assessed are contained in the report. As per the report the recommendation is to change the speed limit along King Street Rudheath to Middlewich, between the South side of the A556 roundabout and the existing 30mph speed limit entering Middlewich on Ravenscroft Bridge.

The proposal meets the Department of Transport guidance on setting local speed limits and is supported by the Police, the Parish Councils and the local CWAC Members.

The scheme will be fully funded by Cheshire West and Chester Highways.
