## Introduction

This profile is one of six themed profiles which show 2011 Census results. There are five profiles which focus on particular topics and a sixth 'overview profile' which brings together all the key results from the 2011 Census for the chosen geography. The profiles are:

- Overview
- Economy
- Environment
- Health and Wellbeing
- Housing
- People and Population.

Profiles are available for a range of geographies including Cheshire and Warrington authorities, wards and lower super output areas.

They have been produced in partnership by the Local Authorities in Cheshire and Warrington as part of a suite of products to help inform people of the main results from the 2011 Census.

The full range of 2011 Census products produced by the partnership includes (for each of the Local Authorities):

- A 2011 Census Ward Atlas with maps and tables comparing and ranking wards
- A report comparing change between the results of the 2001 and 2011 Census
- A range of Spotlight reports (detailed themed reports due in 2014).

The 2011 Census products and 2011 Census tables are available via:

[www.cheshirewestandchester.gov.uk/research](http://www.cheshirewestandchester.gov.uk/research)

### **Guidance note on small numbers**

The Office for National Statistics (ONS) used a process called statistical disclosure control to ensure no individuals could be identified in any published 2011 Census tables. ONS swapped some Census records between different areas to protect information supplied by individuals. In practice, this means where a result is a small number, there is an uncertainty as to whether this is a true value.

## Economic activity

A person aged 16 to 74 was economically active if, in the week before the census, they were:

- in employment, as an employee or self-employed,
- not in employment, but were seeking work and ready to start work within two weeks, or
- not in employment, but waiting to start a job already obtained and available.

## Industry

The following table shows the industry in which people aged 16 to 74 worked grouped by sector. This relates to their main job, and is derived from information provided on the main activity of their employer or business. This was used by the Office for National Statistics to assign responses to an industry code based on the Standard Industrial Classification (SIC) 2007. Census table KS605EW contains a full list of the SIC 2007 codes.
